Input form for regional version of Plan B

Your name:

Your e-mail address:

City / country location:

What are the main *direct* climate change impacts expected in your region, for example wind, river flooding, sea level rise, increased rain, drought, forest fires...?

What are expected to be some of the main *secondary* effects, for example temporary rehousing or longer-term relocation of populations, repair or rebuilding... Please differentiate between large cities and smaller or rural communities.

Does your government government have an active policy to deal with climate change? if yes, please describe briefly and provide links to downloads, if English is available.

Do local or state governments have active policies to deal with climate change? if yes, please describe briefly.

If current policies and programs need improvement (in your view), please provide some ideas.

Please provide some ideas on how to develop a regional version of Plan B.

This form can be completed on screen and sent to Nils Larsson at <larsson@iisbe.org>.
